

Invokers – part of the Trifork Group

Winds of international change are blowing in Invokers. We are thrilled to announce that Invokers are becoming fully integrated with the Trifork Group as a result of Trifork's acquisition of the remaining 49% of our share capital yesterday.

The foundation of our strong partnership was laid in 2018, when the Trifork Group acquired 51% of the Invokers company, as they acknowledged our ability to deliver innovative and user-friendly Enterprise software solutions based on SAP.

INVOKERS = SMART ENTERPRISE

In the year that followed, we have worked closely with the Trifork Group to solidify our unique market position in the Smart Enterprise business area. We help large organizations drive their digitalization in core processes, deliver performance improvements and through great user experience improve ways of working.

With yesterday's full integration into the Trifork Group, our Smart Enterprise teams now cover entire process from design, to development, to implementation and to operations, delivering a strong value proposition in the full life cycle to its customer by leveraging the SAP Cloud Platform in combination with the Trifork Group services, to deliver and support the digitalized enterprise.

FOR CUSTOMERS, NOTHING CHANGES

It is highly important to stress that our integration with the Trifork Group will have no impact on our existing customers. Contracts will remain unchanged, our CVR number stays the same, and the core team of Invokers allocated to your projects will not change as a result of Trifork's acquisition yesterday.

WHAT WILL CHANGE?

Part of our international growth strategy has led us to Barcelona, Spain – the Silicon Valley of Europe, where we have set up an Invokers office in the most vibrant business area earlier this year to broaden our perspective and recruit exceptionally skilled developers and consultants.

As a member of the Trifork Group, we are able to leverage our offerings and service on a global scale, and we are excited to use this as a steppingstone towards new markets abroad. Going forward, our presence will be felt on an international level, and this is (aside from nerve-wracking) thrilling and filled with endless possibilities.

All the best,
Kevin Hagemann Petersen, CEO of Invokers
